# SMD335AHB

33 L MICROWAVE DRAWER WITH SENSOR

# A WAVE CHANGES EVERYTHING.

## Meet the Sharp Microwave Drawer with Easy Wave Open.

A new approach to microwave design, combining effortless hands-free convenience with sophisticated built-in integration.

Simply wave twice in front of the sensor and the drawer opens automatically.

No handle. No reaching. No need to put down what you're carrying.

The drawer glides smoothly open, giving you easy access to the cooking space from above — a thoughtful approach to everyday convenience and modern kitchen design.

Thoughtful technology, designed around the way modern kitchens are used.

From its touchless opening to its sleek integrated form, every detail of the SMD335AHB is designed to make the microwave feel less like an appliance and more like a natural part of the kitchen.

### Easy Wave Open

Motion-sensor technology for convenient, touch-free drawer opening.

### Spacious 33L Flatbed

Generous cooking capacity with a flatbed cavity for greater flexibility.

### Flexible Installation

A built-in, under-counter design gives you greater freedom.

### Premium Black Glass

A sleek piano black glass finish creates a sophisticated, contemporary look.

*Wave. Open. Cook.*

# DESIGNED TO DISAPPEAR.

## Beautifully Integrated. Naturally Positioned.

The Sharp SMD335AHB Microwave Drawer is designed to become part of the kitchen rather than compete with it.

Its sleek piano black glass finish and drawer format create a refined, contemporary aesthetic, while its built-in, under-counter design gives kitchen designers greater freedom to incorporate microwave functionality exactly where it makes sense.

The result is a cleaner visual environment, valuable benchtop space and an appliance that feels considered from the outset.

## Design Freedom.

- **UNDER THE ISLAND**  
Keep the main cooking and preparation zone visually clean while placing the microwave within easy reach.
- **UNDER THE HOB**  
Create a streamlined cooking environment by positioning microwave functionality close to the primary cooking area.\*
- **UNDER CABINETRY**  
Integrate the Microwave Drawer into the wider appliance composition for a cohesive, considered finish.
- **WITHIN A PENINSULA**  
Make productive use of available space while maintaining the clean lines of the kitchen design.\*

## Designed Around Your Kitchen.

With its drawer-style format and smooth, ergonomic access, the SMD335AHB provides an alternative to conventional countertop microwave placement. Its flatbed 33L cavity also provides generous space for everyday dishes and cookware.

For designers and homeowners, that means more freedom to consider how the appliance looks, where it sits and how naturally it fits into everyday life.

***A premium appliance that works with your design — not against it.***

**BUILT-IN**   
INSTALLATION

# INNOVATION YOU CAN EXPERIENCE.

## Intelligent technology should feel effortless.

At Sharp, innovation has always been about making technology more useful, intuitive and relevant to everyday life. The Microwave Drawer takes that philosophy into the kitchen, combining thoughtful functionality with a design that responds to the way people actually use their appliances.

- **TOUCHLESS INTERACTION**

Easy Wave™ provides a simple, intuitive way to open the microwave drawer without reaching for a handle.

- **DRAWER-STYLE ACCESS**

The drawer configuration provides a practical alternative to a conventional front-opening microwave, making it easy to place and remove food.

- **INTUITIVE EVERYDAY COOKING**

Straightforward controls and versatile cooking functions make the microwave easy to use for everyday meals and preparation.

- **DESIGN-LED TECHNOLOGY**

Technology is integrated into the appliance rather than dominating the kitchen, helping maintain a clean and considered aesthetic.

## Designed to disappear. Engineered to perform.

The best kitchen technology doesn't need to demand attention. It works quietly within the environment, providing the functionality you need while allowing the overall kitchen design to take centre stage.

*That's innovation designed around real life.*

W I N N E R

The Sharp Microwave Drawer has been honoured with a **2025 iF Design Award for Product Design**. Its sleek, handle-free form, flexible built-in installation and intuitive hands-free opening combine elegant design with effortless everyday convenience.

**HANDS-FREE** *Wave* **OPENING**

The image shows a Sharp Microwave Drawer installed in a kitchen. The microwave is black and has a digital display and buttons on the top right. A hand icon is shown next to the word 'Wave', indicating the hands-free opening feature. The text 'HANDS-FREE' and 'OPENING' are in large, bold, white capital letters, while 'Wave' is in a white script font.

# COOK MORE. FIT MORE.

## Designed for everyday cooking, with room for more.

The Sharp Microwave Drawer brings together intuitive cooking technology and a generous 33L flatbed cavity, giving you the flexibility to do more than simply reheat leftovers.

From everyday meals and family-sized portions to larger plates and dishes, the spacious flatbed design provides a generous cooking area without the limitations of a traditional turntable.

## 33L of Cooking Freedom.

*Room for the dishes you actually use.*

The generous 33L cavity is designed to accommodate larger plates, dishes and family-sized portions with ease. The flatbed design eliminates the traditional turntable, providing a more open and practical cooking space and making it easier to position different shaped dishes inside.

### Sensor Cook

Automatically adjusts cooking for great results with less guesswork.

### 10 Power Levels

Choose the right level for the task.

### Reheat

Quickly bring meals back to serving temperature.

### 4-Stage Cooking

Program multiple cooking stages for greater control.

### Weight Defrost

Defrost ingredients based on weight.

### 11 Auto Menus

Pre-set programs for everyday cooking.
